360 GT Chassis #2010

This historic original of 360-GT, chassis 2010, was assembled by Ferrari/Michelotto and supplied new via Ferrari UK to Team Veloqx in March 2002.

The car won the British GTO championship in 2002, and placed 2nd in the world FIA GT Championship in 2003 with 1 race victory, three 2nd places, two 3rd's.

It never raced again after 2003, but has since been highly detailed and restored with engine and gearbox rebuilt. It has been demonstrated at some special events, with limited running time. The condition is spectacular for a collector and not typical of used race cars. Importantly the car was further developed, in conjunction with Michelotto, with a much more reliable and durable Michelotto/Hewland gearbox with sequential shift. This car has played a significant part in Ferraris FIA GT victory records, is eligible for many events around the world, and is a piece of choice for any race car collector. Entirely revised, Race ready.

2003 - FIA GT Championship TMC

2003/Apr/06	9th OA 2nd GT	Barcelona	Davies / Mullen	#88
2003/Apr/27	6th OA 1st GT	Magny Cours	Davies / Mullen	#88
